AirPrint is an Apple technology that helps you create full-quality printed output without the need to download or install drivers.

### **About AirPrint - Apple Support**

First things first, have you completely powered the unit off and back on? If so, try sending a "test print" to the printer which can be found under "printer properties" and see if it still happens. If you still see the characters on the test print, it's possible you have a problem with the main processor board in the printer. If you print a "test page" and all goes well, try uninstalling your ...

Android is a mobile operating system developed by Google. It is based on a modified version of the Linux kernel and other open source software, and is designed primarily for touchscreen mobile devices such as smartphones and tablets. In addition, Google has further developed Android TV for televisions, Android Auto for cars, and Wear OS for wrist watches, each with a specialized user interface.
