Volvo Penta | On land and at sea

Hi I am looking at a boat that has an MD30 fitted 65hp raw water cooled with under 700hrs on the clock which seems low for a 1985 engine, does anyone know what the base engine was and would it help to fit a heat exchanger at this late date, or best to leave alone. The engine has been serviced as per the manual so I'm told and compression is good.
